Glipdiex 50/500 Tab. (Vildagliptin 50mg + Metformin 500mg Combination) Tablets - Your Guide to Managing Type 2 Diabetes

What are Vildagliptin + Metformin?

Vildagliptin + Metformin are a combination medication used in the management of type 2 diabetes. It combines two different classes of antidiabetic drugs: Vildagliptin, a dipeptidyl peptidase-4 (DPP-4) inhibitor, and metformin, a biguanide.

How to Take Glipdiex 50/500 Tab.

- Take as prescribed by your healthcare provider.
- Usually taken orally, with or without food.
- Swallow the tablet whole with a glass of water.

Benefits of Glipdiex 50/500 Tab.

- Vildagliptin enhances incretin levels, promoting insulin release and reducing glucagon secretion.
- Metformin improves insulin sensitivity and reduces hepatic glucose production.
- The combination helps lower blood glucose levels, especially after meals.

Possible Side Effects

Common side effects may include gastrointestinal symptoms (nausea, diarrhea), upper respiratory tract infections, and headache. Contact your doctor if you experience severe or persistent side effects.

Precautions and Warnings

- Inform your healthcare provider about all medications, including over-the-counter drugs and supplements.
- Discuss any existing medical conditions, especially kidney problems.
- If you experience signs of hypoglycemia (low blood sugar), consult your healthcare provider for guidance.

Important Safety Information

- Regular monitoring of blood glucose levels is recommended.
- Continue the medication as directed unless otherwise advised by your healthcare provider.

Emergency Contact Information

In case of severe side effects or emergencies, seek immediate medical attention. Provide healthcare professionals with details about the medications you are taking.

Follow-up with Your Healthcare Provider

Regular check-ups are important for monitoring your diabetes management. Attend all scheduled appointments and screenings.

Storage

Store Glipdiex 50/500 Tab. at room temperature, away from moisture and heat.

Keep it out of reach of children.
