

## Patient Information Leaflet

### **Mexflozin 10 (Dapagliflozin 10 mg) Tablets - Your Guide to Managing Type 2 Diabetes**

#### **What is Mexflozin 10 Tab.?**

Mexflozin 10 (Dapagliflozin 10 mg) is a medication used to treat type 2 diabetes. It belongs to a class of drugs called sodium-glucose co-transporter 2 (SGLT2) inhibitors, which work by helping the kidneys remove excess glucose from the body through urine.

#### **How to Take Mexflozin 10 Tab.**

- Take Mexflozin 10 exactly as prescribed by your healthcare provider.
- Typically, it is taken once a day with or without food.
- Swallow the tablet whole with a glass of water.

#### **Benefits of Mexflozin 10 Tab.**

- helps lower blood sugar levels by increasing the excretion of glucose in the urine.
- May contribute to modest weight loss.

#### **Possible Side Effects**

Common side effects may include urinary tract infections, increased urination, and thirst. Notify your doctor if you experience any severe or persistent side effects.

#### **Precautions and Warnings**

- Inform your healthcare provider about all medications, including over-the-counter drugs and supplements.
- Report any history of kidney problems or hypersensitivity to Mexflozin 10.
- Stay adequately hydrated, especially if you are prone to dehydration.

#### **Important Safety Information**

- Avoid alcohol consumption while taking Mexflozin 10.
- regularly monitor your blood sugar levels as advised by your healthcare provider.
- Inform your healthcare provider if you are pregnant, planning to become pregnant, or breastfeeding.

**Emergency Contact Information**

In case of an emergency or severe reaction, seek immediate medical attention. Share details about the medications you are taking with healthcare professionals.

**Follow-up with Your Healthcare Provider**

Regular check-ups are important to monitor your diabetes management. Attend all scheduled appointments.

**Storage**

Store Mexflozin 10 Tablets at room temperature, away from moisture and heat.

**Keep it out of reach of children.**
